- (b) NACCAS shall verify information provided on the annual reports using various methods, which shall include, but not be limited to,

- (c) Institutions with one or more outcomes (graduation, placement, licensure) below NACCAS minimum threshold, based on the annual reports due most recently, shall be required to comply with monitoring (see Section 5.0(d) below).
- (d) Monitoring: Depending on the number of years the institution has had a low outcome, and in accordance with [Section 8.18](#) (see page 124) of these *Rules*, the Commission may monitor the institution through a process including requiring the institution to undertake one or more of the elements listed below:

 - (3) Conduct a student retention study;

- (b) In any accreditation process, the Commission may request the institution's most Recent financial statements, to determine compliance with NACCAS Standard VII, Criterion 1 (see page 17). The Commission may accept partial-year financial statements as evidence of compliance with Standard VII, Criterion 1 only in the case of a Category 3 Change of Control in which Control is acquired by a newly-formed Business Entity that has been in operation for less than a full 12-month period.
- (c) In the case of the following accreditation processes, if more than fourteen (14) months have passed since the fiscal year end date of the institution's most-recently submitted audited financial statements, the Commission shall defer final action on the application until it has received the institution's audited financial statements for its most recent fiscal year; provided that the foregoing shall not apply if the Commission determines that its consideration of the application has been delayed beyond the 14-month deadline through no fault of the institution.

- (2) Application for Renewal of Accreditation
